HISTORY

LIFTING AND HEAVY EQUIPMENT SAFETY SPECIALIST OF ASIA CORPORATION (LHESSACORP) was established on April 24, 2006 and was registered with the Securities and Exchange Commission (SEC). The company is an accredited Testing Organization by **Department of Labor and Employment - Occupational Safety and Health Center** to conduct a "Third Party Technical Safety Inspection/Testing and Certification of Construction Heavy Equipment" in pursuant to "**Section 10 of Department Order No. 13, series 1998, (Guidelines Governing Occupational Safety and Health in the Construction Industry)**".

It is primarily engaged in **Quality Control and Skills Training** for all types of Lifting Equipment such as CRANES and CONSTRUCTION HEAVY EQUIPMENT. The company uses the STATE OF THE ART DIGITAL LOAD WEIGHT MEASURING DEVICE/ (Load Weight Indicator) and calibrated precision measuring tools to ensure accuracy of required weight and geometric measurement respectively.

LHESSA Corp. holds a reputation for quality service that had enabled it to be a reliable resource for Third Party Safety Inspection for Construction Heavy Equipment.

MANAGEMENT PROFILE

The officers and the key personnel of **Lifting and Heavy Equipment Safety Specialist of Asia** are professionals with an excellent technical track record in quality and safety inspection, as well as operation skills training on mobile crane, lifting equipment and earth moving equipment. The personnel with multi-disciplined capacity are:

- Professional Mechanical Engineers
- Mechanical Engineers
- Mining Engineer
- Civil Engineer
- Electrical Engineers
- Safety Consultants
- Safety Practitioners
- Tower Crane Erection and Dismantling Expert
- Certified Crane Operator
- Industrial Master Electrician
- Certified Plant Mechanic
- NDT Trained Personnel
- TESDA NC II Certified Personnel
- LEEA Certified Crane Inspector

OCCUPATIONAL HEALTH AND SAFETY OBJECTIVES

LIFTING AND HEAVY EQUIPMENT SAFETY SPECIALIST OF ASIA CORPORATION (LHESSA CORPORATION) is a Technical Safety Organization that provides the applicable International and Domestic technical standards as required by the government thru the formerly BWC (Bureau of Working Condition) now the OSHC - DOLE (Occupational Safety and Health Center - Department of Labor and Employment). This organization is committed to ensuring the correct process of technical Evaluation on all Lifting Equipment that have gone to its inspection to have the assurance those risks are prevented and minimized.

INTEGRATED QUALITY, ENVIRONMENTAL, HEALTH AND SAFETY POLICY

LHESSA Corporation employees and investors commit to this policy statement. The statement ensures that the inspection and testing services will meet most areas exceed the expectations of both internal and external customers all times. LHESSA is also committed to the development of its employees and stakeholders into best-in-class service professionals.

LHESSA Corp integrated policy is based on the four fundamental principles:

PLAN Set objectives and develop standards and work instructions. Carry out suitable risk assessments and implement adequate controls. Develop business continuity, crisis management and emergency response plans. Develop arrangements to comply with national and international standards.

DO Deliver our service commitment on timely manner while ensuring safety and welfare of the technical team on assignment. Maintain good communication so everyone understands what our commitments are, the reason for them, and what is required from them.

CHECK Have processes in place to evaluate that we achieved what we set out to do. Active (proactive) monitoring; meeting annual objectives, legal compliance, planned preventive inspections and audits

ACT Annual management review (auditing and action for improvement) to insure existence, adequacy and effectiveness to deliver objectives

LHESSA Corporation is committed to:

- ✓ Provide quality services to its clients by sending in qualified and competent personnel in examining their equipment.
- ✓ Provide on time delivery of inspection reports and certificates.
- ✓ Continuously improve its services by constantly upgrading the skills of its staff and use of reliable instruments for technical evaluation of the equipment.
- ✓ Comply with applicable laws and regulation regarding quality, environmental health and safety.
- ✓ Provide adequate resources for its employees to continue living in acceptable standard.
- ✓ Provide safe working conditions for its employees

MISSION:

- ✓ Providing technical expertise to our clients regarding lifting and construction heavy equipment assessment.
- ✓ To contribute to the economic progress of the nation by working with government agencies and clients on preservation of life and property by providing technical expertise on lifting safety in the construction, mining, industrial, maritime and power generation companies
- ✓ Be a company of choice by its employees and other stakeholders.
- ✓

VISION

- ✓ A premier nationwide inspection and equipment training professional organization in the Philippines and related communities.

LIFTING AND HEAVY EQUIPMENT EXAMINATION AND CERTIFICATION

Lifting and heavy equipment certification services from the **LIFTING AND HEAVY EQUIPMENT SAFETY SPECIALIST of ASIA CORPORATION** are assurance of the safety performance and integrity of your equipment.

Why obtain the quality inspection/examination and certification services from the LHESSA Corporation?

LHESSA Corp can help you:

1. Achieve the required certification of the zone (industrial and export processing) you are operating in and ensure compliance with the applicable regulatory requirements and safety standards.
 2. Assure the safety performance and integrity of your equipment and their components.
 3. Ensure that your equipment is regularly (frequent and periodic) assessed, tested and inspected at the right time and in-line with applicable standards, such as European, American and Asian safety standards.
 4. Verify the design of your equipment according to local and international design codes.
 5. Our technical support team may assist in filing and securing permit to operate lifting appliances as required by the DOLE
- **LHESSA Corporation** is a trusted lifting and heavy equipment inspection/examination and certification in all industries.
 - **LHESSA Corporation** employs licensed professional and registered engineers to deliver its policy of ensuring quality services to its clients.
 - **LHESSA Corporation** uses a calibrated digital load weight indicator and measuring instrument to ensure accurate assessment of the equipment.
 - **LHESSA Corporation** inspectors and examiners are trained to scrutinize the condition and certify equipment which met and passed the rated capacity and safety requirements only.
 - **LHESSA Corporation** provides technical advice and safety reminders during and after the inspection and examination of the equipment covered by the scope of works.
 - **LHESSA Corporation** inspection report can be used as reference for your preventive maintenance program and avoid or eliminate the untimely breakdown of the equipment that could result to loss of productivity and/or injury to people and damage to property.

How LHESSA Corporation Inspection differ from other companies?

We do not just walk around your shop performing operational test on your overhead crane system and then give you a report stating that your crane has been properly inspected.

We do:

- Inspect the wire rope and end connections for any signs of kinking, crushing, cutting, bird-caging, corrosion, reduced diameter, or any other unusual wear. Check for proper reeving and lubrication.
- Inspect the load block and hook for wear, bending, twisting, cracks, grooves, and throat opening.
- Inspect the external parts of the hoist, trolley, framework, catwalk, handrails, etc., for broken parts, misalignment, broken welds, excessive wear, or any unusual conditions.
- Open control boxes and check all contactors, relays, timers, and other electrical component, for wear, proper operation, proper grounding, loose/broken connections, etc.
- Inspect safety devices, i.e. limit switches, etc. for proper operation.
- Inspect motor, couplings and wiring for wear, deterioration, and proper operation.
- Visually inspect, runway rails or beams for general conditions and properly installed safety equipment, ends stop, rail bolts/clips, anti-collision devices, etc.
- Check load brake for proper operation.
- Inspect motor brake for proper operation and air gap adjustment.
- Inspect main power system for collector shoe condition, festoon condition, etc., for signs of arcing or wear.
- Inspect all oil/lube reservoir levels and check for leakage.
- Visual inspection of gearboxes.
- Check entire unit for proper control operation and pendant labeling.
- Inspect the sheaves, drums, wheels and bearings for general condition and lubrication.
- Make available *Easy to read and understandable* reports.

Protect your employees, your production line and your investment; make sure to get thorough inspections done on all your lifting equipment.

BENEFITS of having the equipment to undergo inspection, examination and test from LHESSA Corporation:

1. Being proud that the equipment has passed the strict scrutiny of the equipment inspectors/assessor.
2. Having a documented reference using our inspection reports, this document is needed for your equipment preventive maintenance program.
3. Assured that the inspection and certification is performed by a Department of Labor and Employment accredited organization.
4. Our equipment inspectors/assessors provide real time advices on how to safely operate the lifting and heavy equipment and prevent recurrence of damage or defect incurred while using the equipment based on the inspection findings/results.
5. The final reports and certificates are reviewed and approved by the Professional Mechanical Engineers which is one of the requirements by the DOLE.

SERVICES OFFERED:

A. On - Site Technical Safety Inspections and Test of all types of equipment;

Including but not limited to the following:

- Mobile Crane (telescopic and lattice)
- Other Lifting Equipment (overhead crane, tower crane, forklift truck, gantry crane, goliath crane, port crane, semi-gantry cranes, monorail, under hung cranes, jib cranes, side boom Tractors, man lift (cherry picker), ship loader, ship crane, etc.)
- Construction Elevator or Hoist
- Below-The Hook Lifting Devices (jacks, personnel baskets, spreader bar/beam, balanced pallet lifter, balanced C hook, automatic slab tong, edge grip sheet clamp, etc.)
- Lifting Accessories (slings, shackles, Harness & Lanyard, Lifeline, Rappelling (Rescue), Inertia Reel, and other rigging gears)
- Other (Elevated Platforms, scissor lift, scaffold,)

"Load Testing & Certification of the above where applicable to meet Company or National Standards."

B. Technical Inspection and Functional Test of Off-road Heavy Equipment:

Construction Heavy Equipment

Road Grader

Dump Truck

Bulldozer

Front Wheel Loader

Road Roller Compactor

Asphalt Paver

Mobile Boring Rig

Hydraulic Excavator (Back Hoe/Power Shovel)

Cement Mixer

Concrete mix Pump

Mining Equipment

Haul Pack (60 tonnes and above rated capacity)

Mobile Crusher

Fuel Tanker

Water Trucks

Material Stacker / Reclaimer

Power Shovel

Hydraulic Excavator

Drilling Machines

C. Supply of Certified Rigging Gears, such as:

Slings (Wire Ropes, Fibrous Webs, Chains)

Fittings (Shackles, Thimbles, Cable Clips / Clamps)

Lifting Clamps

Other Rigging Gear Accessories

D. Operational Safety Awareness Training Custom Fit to Your Company Needs

- Safety Seminar for Forklift Operation
- Tower Crane Operation and Safety
- Tower Crane Erection and Dismantling
- Steel Building Frame Erection and Plumbing Up
- Steel Tube Scaffolding Erection and Safety
- Rigging and Heavy Equipment Operations and Safety
- Overhead Crane Operation and Safety
- Mobile Crane Operation and Safety
- Elevator and Gondola Operation and Safety
- All Construction Heavy Equipment like Backhoe, Dump truck, Pay loader, Bulldozer, Backhoe, Hydraulic Drill (Crawler Type), Bobcat, Fuel Truck Operation and Safety
- Equipment Vehicle Spotter (Signal Man) Safety Training
- Passenger Elevator Operation and Safety
- Cargo/Freight Operation and Safety

"Crane Accident Investigations Equipment Appraisal Prior to Purchase"

E. Design verification of fabricated and altered lifting equipment

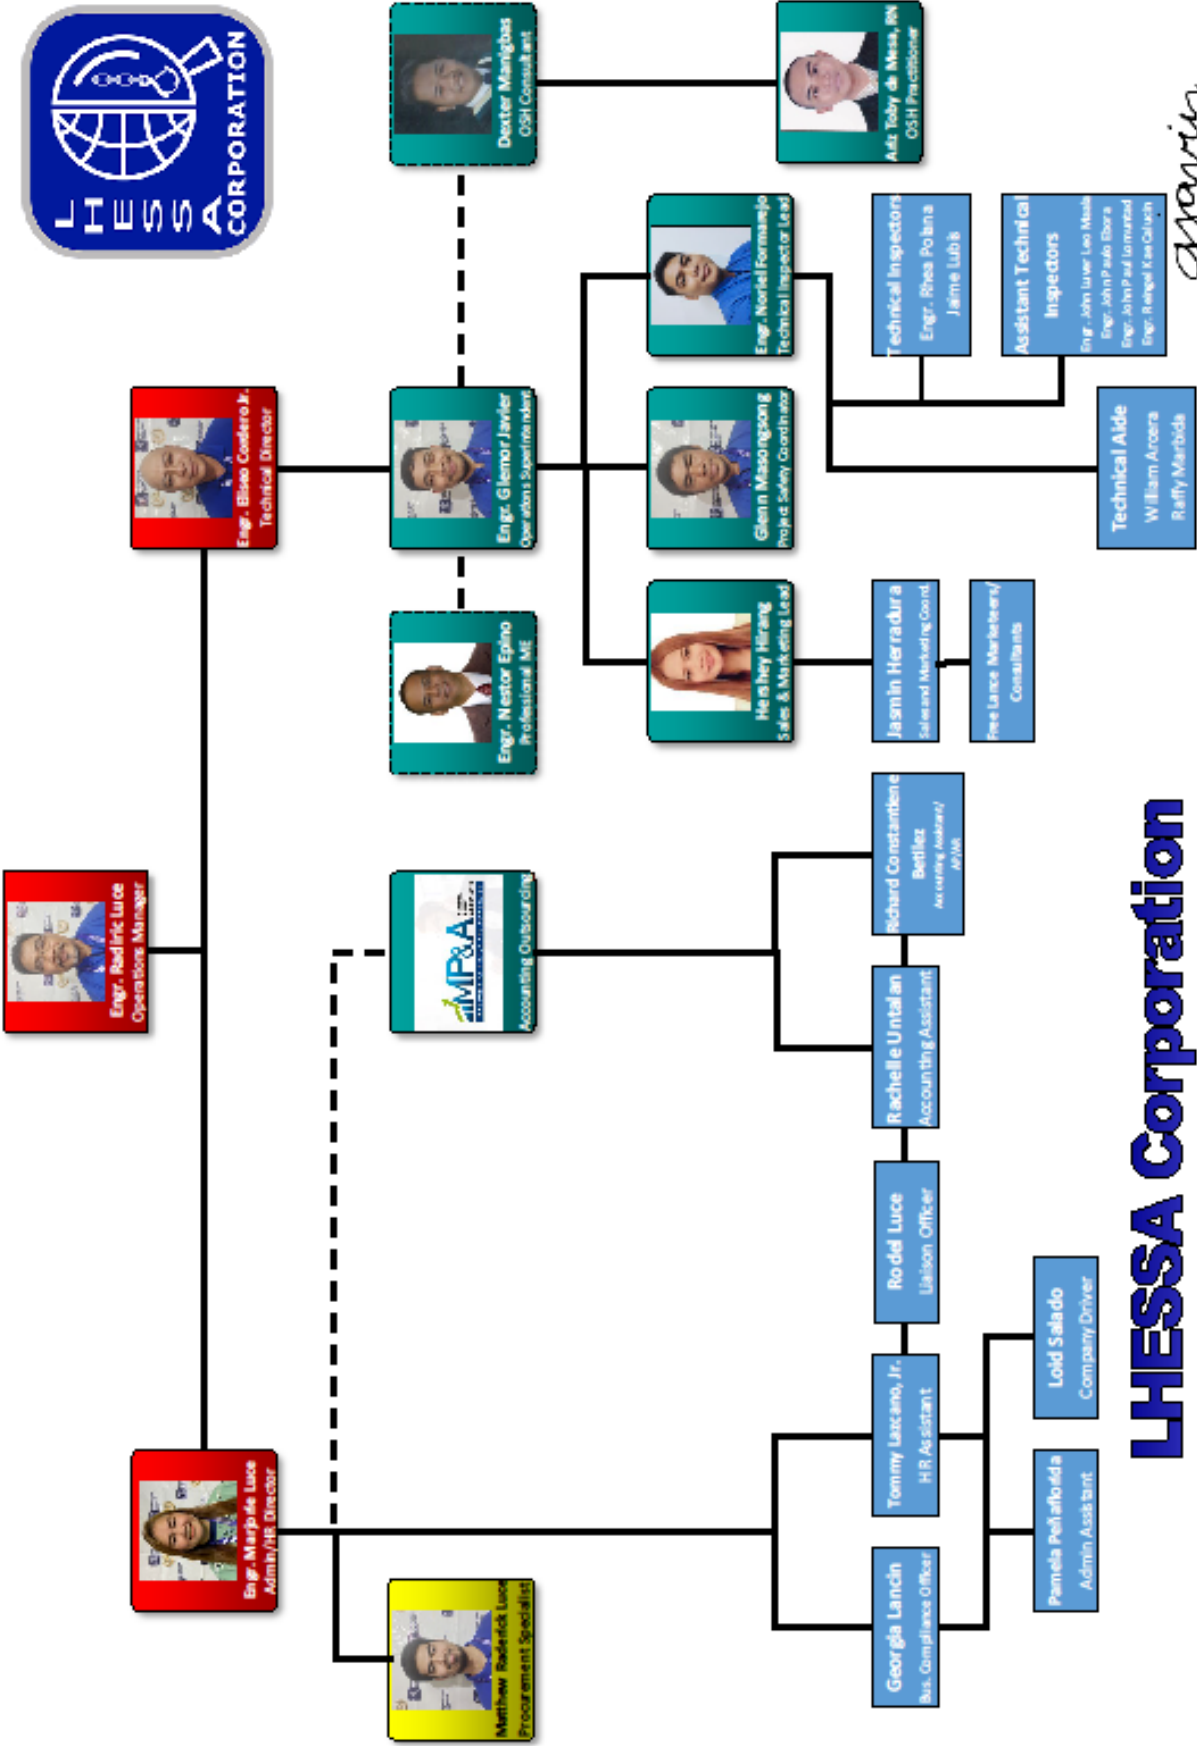

F. Testing of lifts, independent witnessing of equipment performance test to guarantee that performance values are met

G. Repair and Maintenance of lifting and heavy equipment

H. Erection and Dismantling of Tower Crane

I. Engineered and Critical Lift Planning and Execution

SECURITIES AND EXCHANGE COMMISSION

REPUBLIC OF THE PHILIPPINES
SECURITIES AND EXCHANGE COMMISSION
Ground Floor, Secretariat Building, PICC
City of Pasay, Metro Manila

COMPANY REG. NO. CS200606250

CERTIFICATE OF FILING
OF
AMENDED ARTICLES OF INCORPORATION

KNOW ALL PERSONS BY THESE PRESENTS:

THIS IS TO CERTIFY that the amended articles of incorporation of the

**Lifting and Heavy Equipment Safety Specialist of Asia
(LHESSAC) Corporation**
(Amending Articles II Secondary Purpose, III and VII thereof)

copy annexed, adopted on May 18, 2019 by a majority vote of the Board of Directors and by the vote of the stockholders owning or representing at least two-thirds of the outstanding capital stock, and certified under oath by the Secretary and a majority of the Board of Directors of the corporation was approved by the Commission on this date pursuant to the provision of Section 15 of the Revised Corporation Code of the Philippines, Republic Act No. 11232, which took effect on February 23, 2019 and copies thereof are filed with the Commission.

Unless this corporation obtains or already has obtained the appropriate Secondary License from this Commission, this Certificate does not authorize it to undertake business activities requiring a Secondary License from this Commission such as, but not limited to acting as: broker or dealer in securities, government securities eligible dealer (GSED), investment adviser of an investment company, close-end or open-end investment company, investment house, transfer agent, commodity/financial futures exchange/broker/merchant, financing company, pre-need plan issuer, general agent in pre-need plans and time shares/club shares/membership certificates issuers or selling agents thereof. Neither does this Certificate constitute as permit to undertake activities for which other government agencies require a license or permit.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of this Commission to be affixed to this Certificate at Pasay City, Metro Manila, Philippines, this 15th day of October, Twenty Nineteen.
